Subject: Durango Flight Delayed

At least as I write, the UAL web site reports the Durango flight is delayed, leaving at 4:59pm instead of 4:09pm.

It is due in at Denver - at least as of now on paper - could make it difficult to a 6:45pm flight back to Dulles.

I have informed Gail to explore options.

Reminder: I am on a Denver to BWI flight that leaves an hour later.

I have her exploring occupancy on that flight - and other options.

Good thing is that I am already on that flight - so if push comes to shove they only need to find one seat.
